Company overview

FOUNDED 2014 · UTTARKHAN, UTTARA, DHAKA

Trims Bangladesh was founded in 2014 in Uttarkhan, Uttara, Dhaka. What began as a single production line has grown into a 100% export-oriented supplier of garment accessories — elastics, tapes, drawcords, labels and trims — manufactured to the exact specification each buyer sets.

Today we export to more than ten European countries and supply factories and buying houses that expect the same shade, the same hand-feel, and the same delivery date on every repeat order. Our mission is simple: serve every client with utmost satisfaction, and keep expanding what we can manufacture in-house.
